Foundations Case content is appropriate for PGY1-2 residents.	18/18	4.83
Overall, I am highly satisfied with EKG Fundamentals.	5/5	4.8

LEADER SURVEY COMMENTS

"Overall implementation was well done and easy to do. "
"I think the interns have learned a great deal. The intimacy of the groups allows the faculty to develop relationships with the interns early in the year."
"The interns are engaged in the learning process rather than taking a passive approach."
"It has standardized our intern curriculum to include important core content knowledge."
"... easy for instructors given that resources are provided and they don't have to come up with original content each session."
" Educational value across the board..."
"Great way for leadership to assess our interns (find knowledge gaps, application gaps) as well as watch them improve. This early identification and observed growth (or lack there of) has really focused our efforts."
"The interns LOVE all the one on one time and a chance to ask questions. I feel like they are learning on a deep and substantial level. "

LEARNER SURVEY RESULTS

190 Site Learners
190/275 (69%)

Survey Item (1- Strongly Disagree, 3- Neutral, 5- Strongly Agree)	Agree or Strongly Agree	Mean
Overall, I am highly satisfied with the EM Foundations course.	169/190 (89%)	4.18
EM Foundations is beneficial to my development as an EM practitioner.	175/189 (93%)	4.28
EM Foundations course content is appropriate for my level of learning.	177/190 (93%)	4.35
Foundations Meetings are engaging and enjoyable.	163/190 (86%)	4.18
I would recommend the EM Foundations curriculum to other learners.	171/190 (90%)	4.28
Overall, I am highly satisfied with Foundations Learning Pathways.	87/89 (98%)	4.29
Learning Pathway assignments have a positive impact on my clinical performance during ED shifts.	79/89 (89%)	4.16
Overall, I am highly satisfied with Foundations Cases.	150/162 (93%)	4.29
Oral boards style cases are an effective way to learn and apply basic emergency medicine knowledge.	147/162 (91%)	4.34
Foundations Cases have a positive impact on my clinical performance during Emergency Department shifts.	148/162 (91%)	4.27

LEARNER SURVEY COMMENTS

“As a new EM resident, the amount of books and FOAM is overwhelming, so a structure to navigate learning the fundamentals of the specialty is truly helpful.”
“It's reflective of the spectrum of what are actually beneficial ways for people to learn instead of expecting everyone to chew through dense textbooks.”
“High-yield...helps me to stay focused to lay the groundwork for higher level learning as I progress through residency”
“I like the case scenarios that are chosen weekly, because they highlight real-life situations and are essentially practice for when we will encounter/manage those patients in the future.”
“[I like] learning actively with my co-residents, getting to know the faculty in our program in a small group environment, the collaborative teamwork it encourages.”
“I like how interactive and fun the curriculum is. I have learned something new with every session and have left each day wishing that our sessions lasted longer.”
